26er MTB

HF-RIM-25MM

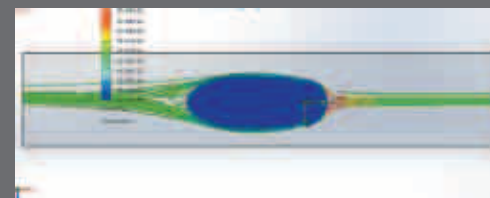

Type:MTB bike rims
Material:Full Carbon
Weight:557g(Clincher)
Weave:3K/UD matte
Hole:24-32H

Computer cut the **carbon fiber**

We used computer cut the carbon fiber. Pieces are machine cut so there exactly right and exactly the same every time (above, left). This keeps weights the same, too. Each kit and final component is weighed and within 10g of the target weight. That includes forks, rims, etc.

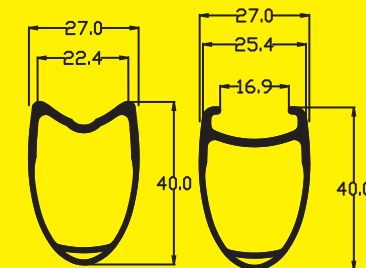

AERO rims CARBON **HF**-W40-T02 HF-W40-C02

HF - RIMS - 40MM

40mm Aero Rim (AR40)
2013 NEW AERO (AR40)
Weight: AR40-T : 380g+ _16g
AR40-C : 480g+ _22g
Brake track: Basalt brake surface.
EPS SYSTEM.
Rim Depth: 40mm.
Max Width: 27.25mm.
Max Tire Pressure: 140psi.
Brake Track Width (center): 25mm

Road bike wheelset

CARBON

HF-W38-T02

HF-W38-C02

HF-Wheel set - 38MM

Type: Road bike wheelset

Sizes: 700C

Material: Full Carbon

Component: chosen hubs + pillar spokes

Style: 1730g (Clincher) / SET

1381g (Tubular) / SET

Weave: 3K/UD matte

Hole: 16-32H

38MM

ROAD

The brake area used special high-temperature resistance carbon fiber, whether dry or rainy or we had tested 10 Million times, and passed without any exception. so using our rims, you can ride in all season.

Full carbon Tri spoke Wheelset Road bike
TT bike carbon tri spoke wheels
700c carbon wheels (rear wheel)
Size: 68mm clincher wheelset
Profile: 23mm clincher
Rim width: 68mm
Material: Toray T700
3k/UD clear coating or matte
R13 hub(black)
Weight: 1010g/pc
weight: 1010g+-10g / pc
carbon tri spoke wheel finish in UD matte

CARBON

Carbon fiber handlebar series

HF-HB019

Material: full carbon
Components: Handlebar
Width: 420mm
Use: Time Trial frame
Type: TT handlebar
Size: 31.8*420mm
Finish: 3k or UD
Weight: 608g
spacer: 5/10/20mm

HF-HB029

Material: Fibre, full carbon
Components: Handlebar
Width: 420mm
Use: Time Trial frame
Type: TT handlebar
Size: 31.8*420mm
Finish: 3k or UD
Weight: 570g
spacer: 5/10/20mm

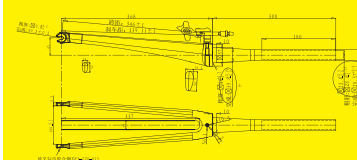

CARBON

Carbon fiber front fork series

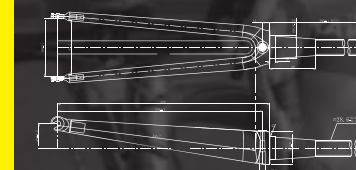

HF-FK008

Type: Road 700c
Material: carbon
weave: 3k/12k/UD
Headset: 1-1/8"
Offset: 45mm

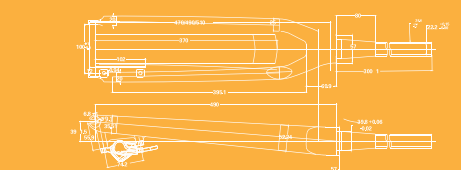

HF-FK007

Type: Road 700c
Material: carbon
weave: 3k/12k/UD
Headset: 1-1/2"
Offset: 45/52mm

HF-FK056

Type: MTB fork
(26er/27.5er/29er)
Material: carbon
weave: 3k/12k/UD
Headset: 1-1/2"
Length: 470/490/510mm

CARBON

Carbon fiber tube
series

YY-FK1 59

Type: MTB fat fork 26ER

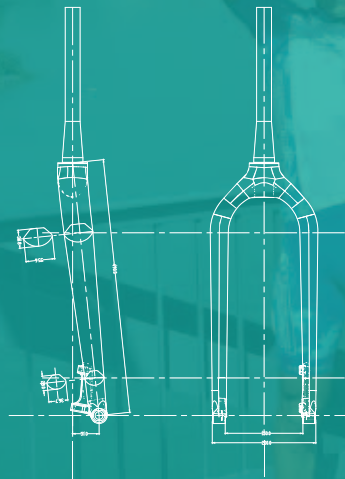

Material: carbon

weave: 3k/12k/UD

Headset: 1-1/2"

Length: 490mm

Width: 150MM

2017 NEW full carbon 0° Seatpost

Item : YY-SP008

Material: Carbon Fiber

Hardware Material: 7075 Aluminum

Diameter: 27.2 mm

Saddle Angle Adjustment: 0-27 degrees

Offset: 0 mm

Length: 400 mm
